8. Click on **Create Final Report** and print the report.

How to Report Shared Transactions

If transactions were shared with other agent(s) please follow instructions below to properly report sales.

- a. Follow the above steps to #7.
- b. Make adjustments in the **Your % of Shared Sale** column. Change the % to match your share. For example, if it is a shared sale and you are identified as the selling agent with 100%, while you were only responsible for 50% you must change that number to 50 to reflect your corrected % share.
- c. Click on **Create Final Report** and print the report.
- d. There isn't a way to add an alternate selling agent in MRIS. Therefore, if you had shared sales on the selling side - after your final report is printed, asterisk (*) the transaction and type in the name of the agent sharing the sale (alternate selling agent).
- e. If you **are** the alternate selling agent, type in information with your share at the end of your report and recalculate the total manually. **Note: your manager must initial changes and you must add a copy of the other agent's MRIS Report. Asterisk (*) all shared transactions.**

How to Enter Non-MLS Information

Question/Issue

If you had transactions with a broker who is not an MRIS Subscriber or participated in a new home sale or FSBO, you may enter the comparable information in MRIS.

Resolution

You may enter a Comparable in Keystone if you had a transaction with a Broker who is not an MRIS subscriber, participated in a new home sale or sold a property that was not entered into the MRIS system as an Active listing. Only properties where you participated in the sale as the Listing or Selling Agent and that have Settled may be entered as a Comparable. If you run your Agent Sales Report and are missing listings, follow the steps below.
