Subject: Support For Motions

Commissioner Combs,

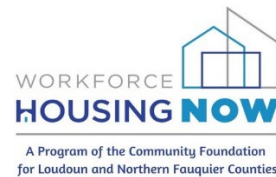

Hope this email finds you well.

The Loudoun Chamber strongly supports your motion to reduce the parking ratio for Attainable Housing and your motion to revise Appendix C.

We implore you to take up these motions at the June 5th Planning Commission Work Session and address the concerns in Chapter 9 and Appendix C.

Lack of flexibility for future attainable, affordable housing projects and excessive parking regs for AHUs, must be addressed and corrected in the draft zoning document.

Please find below a list of community organizations and partners that staunchly support both of these draft motions:

Packie Crown

We look forward to next week's Planning Commission Work Session. Thank you for your service to our Loudoun County community.

Kind regards,
Theo Stamatis
